Q&A

Q What should doi the charger doesn'c work o charge devices intermittently?

A: Please check the following steps:

1. Please make sure your devices have wireless charging function and can be charged wirelessly
2. Please use the adapter and cable provided in the package
3. please check if the charging indicator light is on, if not please unplug and reinsert the adapter and case.
4. Please use other 18W adapter and charging cable to check if the adapter and cable are damaged.
5. Please make sure that the thickness of the phone case is 4mm (if there is a case) and there are no any metal, pop rings, cred cards or magnetic interference charges.
6. Please align the coil of your devices with the charging center.
7. Update your device to the latest system and restart the device

Q: What should I do the charging is slow?

A: Please check the following steps:

1. Please make sure to use the 18W adapter and cable provided in the package.
2. Charging efficiency depends on the receving power of your devices and it is not recommended to keep the APP running during slow charging.

Q: Whatsnould I do if the charger heats up during charging?

A: Please check the following steps:

1. It is normal for the receiving coil or transmitter board to generate heat during wireless charging. If the charger is to hot please take your

phone off from charger to wait the charger to cool down and charge again.
2. It is recommended to avoid using the charger in high temperature and sun exposure environments as possible.

Safety Notice

1. Do not disassemble or throw the product into ffire or water to avoid short circuit.
2. Do not use wireless charger in extremely hot, humid or corrosive environment
3. Make sure there are no any metal, pop rings, credit cards or magnetic interference charges.
4. Keep out of reach of children and pets.
5. If the charging station overheats and stops charging during use, please remove the charging device and try charging after cooling down.
6. Avoid dropping the product from high place.
