2. **Pairing:** Once the speaker is turned on, open your mobile device, search for the wireless device, and select “Wireless ID 25241”. It will pair automatically. The LED indicator will turn solid blue once paired successfully.
3. **Play/Pause:** Short press the button to play or pause the music. The LED indicator will flash blue while playing music.
4. **Next Track/Vol+:** Long press to go to the next track; short press to increase the volume.
5. **Previous Track/Vol-:** Long press to go to the previous track; short press to decrease the volume.
6. **TF Card Play:** Plug the TF card into the TF slot; it will automatically play the music.
7. **Charging:** Use the included Type-C cable to connect the speaker to a certified adaptor. The LED indicator will illuminate red during charging and turn off when fully charged.
8. **Power Off:** Long press the power button to turn off the speaker.

Caution:

1. Please enjoy music at an appropriate volume to avoid damaging your hearing and sound system.
2. Avoid exposure to rain, water droplets, and prolonged exposure to high temperatures and high humidity.
3. Keep the product away from heat and high pressure, and prevent children from playing with it.
4. Use a power source that meets the product’s requirements.
5. Avoid dropping or bumping the product and applying heavy pressure to prevent damage.

Warning:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

4. Consult the dealer or an experienced radio/TV technician for help.
