Specifications

objects (aside from devices which support wireless JNQ31LG | JNQ31WO charging) on top of the charging pad. Avoid placing phone cases which include metallic portions on the charger. In rare cases it may not be possible to detect smaller metallic objects, such as foil logos on phone cases, and the charger may continue to operate. In these 80 (L) x 92 (W) x 152 (H) mm cases,the metallic object will heat up and may cause 31(I) x 36 (W) x 59 (H) in damage to the device being charged over time. This device is designed for indoor use only.

Warnings

This device uses inductive charging. Do not place metallic

- Do not deliberately damage the device or expose it to damp, direct sunlight, or high temperature conditions
- It is normal for the device to be slightly warm to touch during operation. Provide adequate ventilation and do not cover the device while in operation.
- Disassembling or failing to properly use and care for your device will void the warranty on the product
- Do not use the product if it becomes damaged as this could pose a risk of causing damage to connected devices.
- Journey bears no responsibility for damage to the device or incidental damages arising from improper use or lack of care. Journey will not be held liable for repair or replacement of the device or other damages in these
