Shenzen Chuangshenli Interactive Car Gadget User Manual

(2A8LZ-002)

Just Show It

Now, Let' s Get Started

1. Insert 3V Lithium battery in the battery compartment on the back of Geshowit hand unit. Press the gesture button on the remoter to display the corresponding gesture light of the HAND LIGHT and resume the cover.(If the hand unit does not lightup, roll the battery around)
2. Clean the area where you would like to stick your hand light.(If the surface is freezing cold, please DO NOT attach the hand unit)
3. Tear off the tape' s cover of the hand unit and remote, and place them to your desired places. Please place your remoter on a safe location that is convenient to control while driving according to your wants.
4. The Battery of the remote is repeable. Pop the back cover of the remote open with the accompanying pin through the slot, then we can replace the CR2032 battery.
