How to use these two modes

- Neither mode is available on Xbox.
- Compatible Devices: PS5, PS4, PC, Mac, Laptop, mobile, Nintendo Switch (invalid Microphone)

Bluetooth Mode

- Delays < 48ms
 - Compatible with PC/Mac/Nintendo Switch/Mobile;
 - Bluetooth mode employs 5.4 Bluetooth technology to establish a wireless connection with devices, allowing you the freedom to move while enjoying audio.
1. Turn on the headset and enable Bluetooth on your device (Computer, Mobilephone, Mac Nintendo Switch) .Set it to discoverable mode and search for new devices.Find“FC-200” in the searched device list and click to pair.
 2. Bluetooth mode Voice Prompt & LED Light:
 - “Bluetooth Mode”: Flashing Blue light
 - “Bluetooth Connected”: Breathing Blue light

2.4GHz Dongle Mode

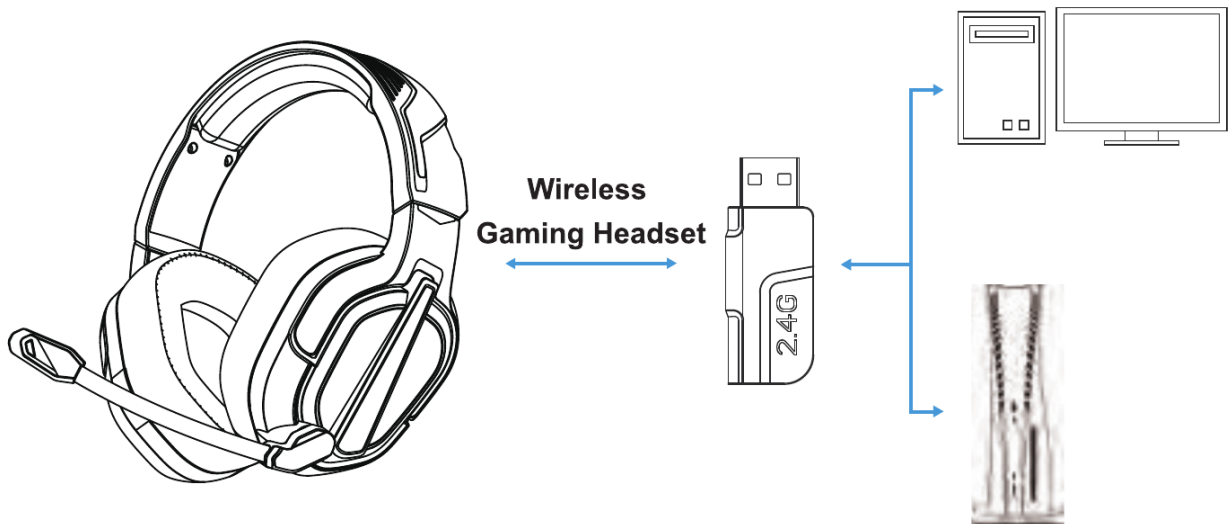

- Delays < 24ms (Ultra Low Latency)
- Compatible with PC/PS4/PS5; If you're using USB dongle to connect a Mac or Nintendo Switch, you'll need a USB-A to USB-C adapter (package not included).

- 2.4GHz wireless dongle delivers a more stable signal and reduced latency.

1. Plug the USB 2.4GHz dongle into the C port of your device (PC, PS4, PS5), then turn on the headset, find “Wireless Gaming Headset” in the Output Devices in the Sound Settings and click on Pairing. While waiting for pairing, the LED will be green and blinking slowly.

2. 2.4G Dongle Mode Voice Prompt & LED Light

- “Dongle Mode”: Flashing Green light
- “Dongle Connected: Breathing Green light

Tips for setting up the device when the headset is connected

1. PC connection setup

- Open “Control Panel” and click “All Control Panel Items.” Right-click on “Wireless Gaming Headset” and select “Set as Default Device.”
- Go to the “Recording” tab, then right-click on “Wireless Gaming Headset” and select “Set as Default Device.”

2. Mac connection settings

- Click on “System Preferences.”
- Navigate to “Sound.”
- In the “Output” tab, right-click “Wireless Gaming Headset” and select “Set as default device.”
- In the “Input” tab, right-click “Wireless Gaming Headset” and select “Set as default device.”

3. PS4/PS5 connection settings

- Click “Settings” on the screen.
- Go to the “Devices” tab.
- Click the “Audio Devices” tab.

- Set “Wireless Gaming Headset” as the default device for both “Input Device” and “Output Device” by right-clicking it.
- Adjust “Volume Control (Headset)” as needed.

4. Nintendo Switch connection settings

- Turn on your Nintendo Switch then plug the Nintendo Switch into the docking station and connect the monitor.
- Connect the wireless adapter to a USB port on your Nintendo docking station.
- Press the power button on the headset for 3 seconds to power on.

Warm Tips

1. Pressing the “mic button” and “RGB light button” buttons simultaneously for 6 seconds will clear all Bluetooth devices.
2. To maintain normal battery life, use the product at least once every two weeks and charge the headset in time after use.
3. If there’s no sound from the microphone or headset during use, it may be due to compatibility issues or improper use. Contact our after-sales service team for assistance.
4. For your safety, refrain from using the headset while cycling or driving, and avoid listening to music at high volumes for extended periods. Handle with care to prevent any damage to the appearance or functionality. Specifications are subject to change without prior notice.
