—click the button after turned on the printer, you also can download it by
scan the QR code on the paper.

## Usage Steps

**Tips:**

Please fully charge the printer for the first time, then unplug the charger
before use!The more power you have, the clearer your prints will be!

1. Please press the button and hold on for 3 seconds to tun on the printer!
2. Open the "DOLEWA" APP and Log in

3. Please tum on the Bluetooth of your phone

3. Open the "DOLEWA" APP and Click the "+ Add device" in the upper left corner to looking for the printer device and connect it.

4. After successful connection, you can start using this printer

## How to Replace The Printing Paper

1. Press the side button, open the cover of the print pod, remove the old printer paper.

2. Confirming the direction of paper roll placement(NOTE: The paper should be exposed to the

bin 2cm inleng, so that the machine can automatically absorb paper when closing the bin box)

3. Put the printer cover on then the machine can be used normally.

## Tutorial for replacing small size printing paper:

Press the open cover button, remove the old paper roll, insert the small paper roll (less than 57mm) in the direction shown in the diagram, and place it to the far left.

Next, press the adjustment lever on the right, drag it to the left, and release it after the paper roll is caught, which will fix the paper roll. (Note: the new thermal paper
needs to expose 2CM length of the paper compartment so that the machine can automatically suck the paper when the paper compartment box is covered.)
Cover the paper compartment box, double-click the power button to check if the paper strip is printing normally. After the above steps are correct, the machine can be used normally.
