Tripod Stand

The Tripod Stand

At lowest extension, the Oakcastle PS500's tripod is 43.5cm high and at maximum extension is 76cm high.

- Once removed from the box, unfold the bottom three legs. Keep it stable and he tripod won't wobble easily.
- Loosen the fixing screws and adjust the tripod to the appropriate height.
- Tighten the fixing screws. Once secured position your speaker and affix on the tripod stand.
Manualsum

Step 1

Secure the tripod stand.

Step 2

Prepare your speaker (Ref.17).

Step 3

Affix the party speaker on the tripod with the screw on the speaker.

Basic Operation

Please note that the instructions within this user manual will refer to the button number on the party speaker or the microphones (Ref number'), and

the buttons on the remote control (Rem 'number'), in accordance with the diagrams from pages 4-8.

Charging Time

Insert the USB Type-C cable at the back of the unit (Ref.11), and then connect with a plug (DC5V) to the mains for charging.

The charging LED screen will light up red (Ref.8). It takes up to 6 hours to process a full charge course of the internal battery. Once fully charged, the red LED light will switch off. Disconnect the party speaker from mains and take advantages of its portability.

Please Note: It would be recommended to process a full charge course when not in use for longer battery life.

Playback

The Oakcastle PS500 has an internal rechargeable battery. Once fully charged, the speaker can be used on battery power for up to 6 hours.

Please Note: The playtime may vary based on the volume level and lighting modes usage while playing on battery power.

Power ON/OFF

Rotate the 'Power ON/OFF' knob (Ref.1) to the right to switch the power on and increase the volume as per your preferences. Rotate the 'Power ON/OFF" (Ref.1) to the left to decrease the volume and switch off the party speaker.

TWS

The 'TWS' function can only be used when using two Oakcastle PS500 Party Speakers which you can connect and use as twin Bluetooth party speakers.

Please note: each package only contains one Oakcastle PS500 Bluetooth PartySpeaker.

To connect two Oakcastle PS500's, you should first ensure that both speakers are powered on and not paired individually with other devices via Bluetooth. Press the 'TWS' button (Ref.3) twice on one of these speakers and both will wirelessly connect with each other.

Once both Oakcastle PS500 are paired, switch on Bluetooth connectivity on your phone, and then search for ''Oakcastle PS500'. Select and pair with the speakers. You can now play audio on both party speakers.

To disconnect, the 'TWS' button (Ref.3) twice on one of the party speakers.

Bluetooth, USB & Micro SD Card Mode

Bluetooth Mode

The Oakcastle PS500 can be paired via Bluetooth with a phone or a tablet to play audio from your device via your party speaker.

Press the 'MODE' button on the unit (Ref.3) or on the remote control (Ref.23) repeatedly to change the speaker mode in Bluetooth. The text 'BT' will be displayed on the PS500 screen indicating the mode.

Once in Bluetooth Mode, the speaker is ready to pair. Activate Bluetooth on your device and search for 'Oakcastle PS500'. Select the speaker and pair with your device.

Once connected you can now start playing audio from your device via your party speaker.

Please Note: The Oakcastle PS500 cannot be paired with Bluetooth earbuds or earphones.

USB Mode

Press the 'Mode' button (Rem.23) on the remote control repeatedly to change into USB Mode. The party speaker display screen will show 'USB'".

The USB stick should be of up to 32GB and must be formatted in FAT32 before adding on your stick the audio files in supported formats MP3 or WAV.

Insert the USB stick into the USB Playback port (Ref.15) and the Oakcastle P500 will automatically start playing audio from your stick.

Please note: The Oakcastle PS500 USB port cannot be used as a connection port with other devices as this is just for Playback.

Micro SD card (TF) Playback Mode

Press the 'Mode' button (Rem.23) on the remote control or the one on the unit (Ref.3) repeatedly to change the speaker mode in 'TF'. The text 'TF' will be displayed on the party speaker display.

The TF Card (Micro-SD Card) you can use should be of up to 32GB, which must be formatted in FAT32 before adding the audio files in supported formats MP3 or WAV . Insert the Micro SD Card into its port (Ref.16) at the back of the speaker.

The Oakcastle PS500 will then start playing audio form your Micro-SD Card.

FM Radio & AUX-In Mode

FM Radio

Press the '"MODE' button (Ref.3) on the unit or the one on the remote control (Rem.23) repeatedly to change the speaker mode to 'FM Radio'. The text 'FM' will be displayed on the LCD screen of the speaker.

Press and hold the 'Play/Pause/TWS' Button on the unit (Ref.5) or the Play/Pause button on the remote control (Rem.26) for 2-3 seconds to start processing an automatic scan for the FM radio stations available at your location.

Once the search has been completed, the Oakcastle PS500 will automatically save all FM radio stations available at your location. The party speaker will then start playing the first radio station found.

Press the 'PREVIOUS' or 'NEXT' buttons to play the next or the previously stored FM radio station.

AUX-In Mode

The Oakcastle PS500 can be connected with an MP3 player, CD player, phone, tablet or any other similar device, using an AUX audio cable of 3.5mm (not included).

Insert one end of the audio cable of 3.5mm into the AUX-In port of the party speaker (Ref.14), and the other end into your audio source device's AUX output port.

Once connected , power on the party speaker, and change the Mode to AUX-In Mode by pressing repeatedly the 'Mode' button on the unit (Ref.3) or the one on the remote control (Rem.23), until the speaker's LCD screen displays 'AUX'.

You can now start playing audio from your device via the Oakcastle PS500 speaker.

Troubleshooting

Observation	Potential Cause/Solution
	Ensure the speaker battery is fully charged.
No power or no function	If there is no sign of life, try a full charge without the speaker being used. Check if the charging LED lights up and disconnect the speaker when the LED light goes off. Power the party speaker on right after.
No Sound	Increase the volume using the rotary know on the speaker.

If there is no sound when connected with other device, increase the volume level from your device also on the speaker.

Ensure the Oakcastle PS500 is not paired with other devices and is set to Bluetooth Mode.

Bluetooth not connecting — Ensure your device has Bluetooth activated and search for 'Oakcastle PS500'. When you find the party speaker, connect to pair the devices. You will now be able to play audio via your party speaker.

Support

If you require assistance with your new Oakcastle PS500, please contact our tech Support team by completing the form on our
